

SPRING HAS SPRUNG AT MLDC!

REFERRAL CONTEST!

Last month's referral program was a great success and we would like to repeat it for MAY!

A HUGE thank you to all that referred your friends and family to us in April and you will be entered **into a raffle for a chance to win \$500!**

LET'S DO IT AGAIN FOR MAY!

LET'S DISCUSS PERIODONTAL DISEASE...

Healthy teeth
and gums

Inflammation and
receding gum line
begins with
moderate disease

Advanced disease
shows severe gum
recession

PERIODONTAL DISEASE

(also known as gum disease)

Is a set of inflammatory conditions affecting the tissues surrounding the teeth.

GINGIVITIS

Early stage gum disease

PERIODONTITIS

Serious form of gum disease. The gums can pull away from the teeth, bone loss and teeth may loosen or fall out.

DID YOU KNOW...

-95% OF American adults with diabetes also have periodontal disease.

-People with periodontal disease are twice as likely to develop heart disease

-People who smoke are 2-7 times more likely to develop perio disease than non-smokers.

**Call us immediately
if your gums are bleeding,
sore or swollen!**

**GINGIVITIS IS REVERSIBLE BUT
PERIODONTAL DISEASE IS NOT!**

Spring is the perfect time to come in for your dental hygiene cleaning or perhaps you're ready to whiten that smile for summer!

Give us a call now to schedule
